PROFESSIONAL EXPERIENCE

Independent WordPress & Product Development

Jun 2026 – Present | Mumbai, India

- Build and improve web products from requirements and architecture through implementation, integration, QA and deployment.
- Built and published TickerHQ, a WordPress.org plugin for configurable market-data ticker widgets.
- Develop WordPress-focused solutions involving plugin functionality, API-driven data and configurable website components.

PURETECH DIGITAL | Business Manager

Mar 2008 – May 2026 | Mumbai, India

- Led hands-on technical delivery across concurrent client projects in an agency environment, from planning and implementation to production support.
- Developed and maintained custom WordPress themes, plugins, CMS modules, reusable components and enterprise-facing websites.
- Integrated CRM, payment, financial data, OTP, webhook and third-party APIs with WordPress applications, including authenticated and token-based workflows.
- Investigated production issues across WordPress application code, databases, hosting, plugins, performance and security; implemented practical fixes.
- Worked with stakeholders to clarify requirements and balance delivery timelines, maintainability, quality and business needs.

ADLABS FILMS LTD. | Senior Developer / Technical Coordinator

Jan 2006 – Jan 2007 | Mumbai, India

- Delivered web development and technical coordination across application updates, issue resolution and stakeholder requirements.
- Supported website maintenance, troubleshooting and day-to-day development activities.

GODREJ INFOTECH LTD. | Web Developer

Jan 2005 | Mumbai, India

- Contributed to web development, maintenance and technical implementation in an enterprise environment.
