PROFESSIONAL EXPERIENCE

Independent Web & Product Development

Jun 2026 – Present | Mumbai, India

- Build and improve web products from requirements and architecture through implementation, integration, QA and Deployment.
- Built a restaurant ordering and commerce platform featuring customer ordering, restaurant administration, menu management, and order workflows.
- Built and published TickerHQ, a WordPress.org plugin for configurable market-data ticker widgets.
- Built StockPulse, a responsive React and Vite market dashboard with API-driven data and charting.

PURETECH DIGITAL | Business Manager

Mar 2008 – May 2026 | Mumbai, India

- Led hands-on technical delivery across concurrent client projects in an Agency environment, from planning and implementation to production support.
- Developed and maintained WordPress themes, custom plugins, CMS modules, reusable components, and Enterprise-facing websites.
- Delivered client web solutions.
- Integrated CRM, Payment, Financial Data, OTP, Webhook and Third-party APIs, including authenticated and token-based workflows. Investigated production issues across application code, databases, hosting, plugins, performance, and security; implemented practical fixes.
- Worked with stakeholders to clarify requirements and balance delivery timelines, maintainability, quality, and business needs.

ADLABS FILMS LTD. | Senior Developer / Technical Coordinator

Jan 2006 – Jan 2007 | Mumbai, India

- Delivered web development and technical coordination across application updates, issue resolution, and stakeholder requirements.
- Supported website maintenance, troubleshooting, and day-to-day development activities.

GODREJ INFOTECH LTD. | Web Developer

Jan 2005 | Mumbai, India

- Contributed to web development, maintenance, and technical implementation in an enterprise environment.

EDUCATION

Bachelor of Commerce (B.Com) | University of Mumbai
